A petition has been circulated among residents on Putnam street for the extension of main mains through that part of the town. The large number of new houses erected in the vicinity recently has provided enough room for the extension of the mains through the street. Profitable and tenants are hoping to get the petition through by the time it is possible to let their furnace fires die out for the summer.

Leonard A. Brown and Floyd S. Crafts of Wilmington, representing the Board of Trade in that place, made a special trip to Bennington yesterday afternoon to attend the banquet of the local board in the evening. They had a narrow escape en route when a landslide occurred in the vicinity of Monroe Bridge and dumped several tons of earth and rocks on the tracks just ahead of the train. The debris was barely cleared away in time to make connections with the 4:30 Boston & Maine train.

"Peddler's Acre"

Lambeth "old" church has numerous historic monuments, and in one of the windows is the full length figure of a peddler with his pack, staff and dog. This is supposed to represent the unknown person who presented "Peddler's acre" to the parish upon condition that his portrait and that of his beloved canine companion should be preserved in the church and that his dog should be given a grave in consecrated ground. Settled 25 Years Before Saint Augustine, Florida.

Washington, April 19—"Chihuahua City is flourishing with almost as much persistence in the news headlines of today as did Vera Cruz during the 'Tampico incident,' yet the average American's only mental association with the name of the capital of the largest state in the Mexican republic is that it's the place the funny little dogs come from," says a primer, issued by the National Geographic society of Washington, which tells of the importance of this city of 40,000 inhabitants whose history antedates by more than a quarter of a century the first permanent settlement made by Europeans in the United States, at St. Augustine, Fla., in 1565.

"The march of General Pershing's punitive expeditionary force marks the third visit of a body of United States soldiers to this center of the mining industry of the state of Chihuahua, which is as large as the combined areas of Ohio and Pennsylvania," continues the bulletin. "During the Mexican
